I'm currently a final year student in VIT Vellore pursuing a B. Tech in Computer Science and engineering, have an avid interest in Data Science, and would like to pursue a career in the same. A keen learner and a motivated individual who is always striving to solve real world problems.

PROJECTS:

Image to Recipe Translation

Under the guidance of Prof.Sathyaraj R:

In this project, I have implemented an image-to recipe generation system, in which a particular food image, when fed into the system, will yield the four most probable recipes.

COMPARATIVE STUDY ON VARIOUS TECHNIQUES USED TO DETECT FRAUDULENT ACTIVITIES IN RETAIL TRANSACTIONS

Under the guidance of Prof.Sivasankari S

In this project we compared the accuracy of KNN, Decision Trees, Random Forest, and logistic regression. It was found that Random Forest performed the best.
